PHASE 5 – PROJECT DEVELOPMENT

Project: Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer

1. Development Objective

Implement the designed automation in ServiceNow so that an approved Standard Laptop request automatically creates a Catalog Task and assigns it to the Hardware team.

2. Development Steps

Step	Development Activity
1	Create or configure the Standard Laptop item in Service Catalog
2	Configure the required request and approval process
3	Create a Flow in Flow Designer
4	Set the approval condition as the Flow trigger
5	Add action to create a Catalog Task
6	Add required laptop configuration details to the task
7	Set Hardware as the assignment group
8	Activate the Flow and verify the complete process

3. Tools / Modules Used

- ServiceNow Platform
- Service Catalog
- Flow Designer
- Maintain Items
- Catalog Tasks

4. Development Flow

Standard Laptop Request → Approval → Flow Designer Trigger → Create Catalog Task → Assign to Hardware → Laptop Configuration

5. Development Outcome

The automation is configured to reduce manual task creation and assignment and provide a consistent laptop procurement process.
